PROFESSIONAL SUMMARY

Results-driven ICT professional with 4+ years of continuous hands-on experience in technical support, network infrastructure management, and user service coordination. Bachelor of Science in Computer Science complemented by CCNA certifications in networking, switching, routing, and enterprise networking security. Skilled in incident management, problem resolution, and coordinating technical support operations to ensure minimal downtime and optimal user satisfaction, with a working foundation in software development (Java, C++, C#, Dart, web technologies) and database management (MySQL, Firebase).

CORE COMPETENCIES

- **Technical Support & Troubleshooting:** Expert in diagnosing and resolving hardware, software, and network connectivity issues
- **Network Infrastructure:** Proficient in network installation, configuration, and maintenance (routers, switches, wireless systems)
- **Systems Administration:** Windows and Linux system administration, workstation deployment and configuration, software deployment and updates
- **Software Development:** Working knowledge of Java, C++, C#, Dart, and web technologies (HTML, CSS, JavaScript), with database management using MySQL and Firebase
- **Service Coordination:** Experienced in managing user requests, tracking issue resolution, and ensuring timely service delivery
- **Problem Management:** Strong analytical skills for identifying root causes and implementing preventive solutions
- **Documentation & Reporting:** Skilled in maintaining detailed records and preparing comprehensive technical reports
- **Communication:** Excellent interpersonal skills with the ability to explain technical concepts to non-technical users

PROFESSIONAL EXPERIENCE

IT Technician | Bits & Bytes Computers, Lilongwe

January 2026 - Present

- Providing ongoing technical support and troubleshooting services for a diverse client base, managing multiple concurrent service requests with prioritization based on urgency and business impact
- Coordinating network infrastructure projects including installation, configuration, and maintenance of switches, routers, wireless systems, and cabling for business clients
- Managing client relationships through effective communication, translating technical issues into business terms and providing timely updates on service delivery
- Maintaining detailed service logs and documentation for all client interactions, ensuring knowledge retention and service continuity

ICT Intern | National Economic Empowerment Fund (NEEF), Lilongwe

January 2025 - November 2025

- Provided frontline technical support to staff across multiple departments, responding to and resolving diverse ICT issues including hardware malfunctions, software errors, and connectivity problems
- Monitored and maintained the organization's internal network infrastructure, ensuring stable connectivity and proactively addressing potential issues to minimize downtime
- Coordinated software installations, system updates, and workstation configurations across the organization, managing deployment schedules to minimize disruption
- Documented all technical interventions and maintained detailed records of issues, resolutions, and user interactions for knowledge base development
- Prepared regular technical reports and documentation using Microsoft Office Suite, tracking incident patterns and service performance metrics
- Collaborated with external vendors and service providers to escalate and resolve complex technical issues requiring specialized expertise

IT Technician (Full-Time) | Bits & Bytes Computers, Lilongwe

September 2023 - December 2024

- Performed hardware troubleshooting, diagnostics, and repairs for diverse client systems, managing multiple service requests simultaneously
- Installed and configured operating systems and Microsoft Office packages for business and individual clients, ensuring proper licensing and optimization
- Executed network installation and configuration projects including switches, routers, wireless access points, and structured cabling for small to medium-sized organizations
- Deployed and configured CCTV surveillance systems, managing installation logistics and client training on system operation
- Built strong customer service and communication skills through direct client interactions, translating technical solutions into user-friendly explanations

IT Technician Intern | Bits & Bytes Computers, Lilongwe

November 2021 - August 2023 (holiday internship during university)

- Assisted with hardware troubleshooting, diagnostics, and repairs for client systems during university holiday periods
- Supported installation and configuration of operating systems and Microsoft Office packages for business and individual clients
- Assisted with network installation and configuration projects including switches, routers, wireless access points, and structured cabling
- Gained hands-on exposure to CCTV surveillance system deployment and client training
- Developed foundational customer service skills through direct client interactions

EDUCATION & PROFESSIONAL CERTIFICATIONS

Bachelor of Science in Computer Science

DMI St. John the Baptist University, Lilongwe | Graduated 2024

Cisco Certified Network Associate (CCNA) Training

Lilongwe Technical College

- CCNA: Introduction to Networks
- CCNA: Switching, Routing and Wireless Essentials
- CCNA: Enterprise Networking, Security and Automation

TECHNICAL SKILLS

Systems Administration: Windows and Linux system administration | Server configuration and troubleshooting | Software deployment and updates | Peripheral device management

Database & Applications: Database management and SQL fundamentals (MySQL, Firebase) | Microsoft Office Suite (Word, Excel, PowerPoint) | Operating systems installation and configuration

Networking & Security: TCP/IP networking | Routing and switching protocols | Wireless network configuration | Network security fundamentals and access control | Structured cabling

Programming & Development: Dart, Java, C++, C# | HTML, CSS, JavaScript | Version control (Git)

ADDITIONAL INFORMATION

Languages: Fluent in English and Chichewa
